The Wild Man of Borneo is no More.

CRAB ORCHARD, May 6.—As capricious April wept herself away in the flowery lap of May, the gentle spirit of this grandest of all equines left the wicked's den, and if Brother Barnes is right, he has crossed over the river and is now resting with Stonewall Jackson's charger under the trees in the happy land! A gentler, grander, nobler horse never adorned turf, field or farm! A long and illustrious pedigree on both the paternal and maternal lines, and like Bonaparte, reflecting more glory upon his ancestry than he could inherit from them. Crit Davis, Jr., Crit Davis, Sr., and General Thompson, of Mercer. What a noble, royal lineage! And on the maternal line all the Abdallah princesses that were mingled in the unique pedigree of Hon. W. H. Miller's buggy mare, which Matt Portman, Judge Saufley and Turfman Cook pronounced unrivaled. "The Wild Man of Borneo" was half brother of "Wild Zingarelle," the grandest picture of a horse standing in an imposing attitude, looking far away, I ever saw. My beautiful and peerless iron gray! A Gallatin Talbot was the nearest approach to the Wild Man of Borneo I ever saw and he was said by a most beautiful and accomplished woman, at the front gate of whose stately mansion he used to stand, proudly pawing the earth, while his gallant rider prolonged his visit, like Washington on a similar occasion. By invitation of the Harpers, I have seen Ten Brock, Longfellow, Leopold and Powhatan at their home. I have read of Gen. Taylor's "Old Whitey" at Polo Alto and Beuna Vista, and the hoof-beats of Damon's horse that have reverberated down the centuries for more than 2,000 years, and Alexander's Thessalian horse, Bucephalus, and the war horse of the Incomparable Cid, that gained one more great battle with his dead rider upon his back; but of all the horses I have ever seen, or of which history gives any record, I would not exchange the Wild Man of Borneo for any of them. A cruel, mercenary man asked me since he was killed: "Why did you not sell him and put the money in your pocket?" I replied that I would rather he had died mine than to have sold him for \$1,000. Nor was this an idiosyncrasy of mine. The Baron Kennedy and all his gallant boys put the same estimate upon my equine idol. The eloquent young attorney, W. B. Hansford, saw him the day he was fatally hurt and said he was the finest horse he ever saw. The gallant old chieftain, Baron Kennedy, and I, mingled our tears together over his bier, knowing full well we should never gaze upon his like again. If he were alive I would not exchange him for the famous Pegasus, on whose back the poets of old took their lofty aerial flights over Mount Caucasus. He was gentle and fearless, mild and courageous. No train, no automobile struck the least terror to his dauntless spirit. When permitted to try his speed, trees, fields, flocks and herds and all animate and inanimate things appeared to be wildly rushing to the rear to escape the fleet hoofs of the flying steed; and to the rider in buggy behind him, even in the still day, the rushing wind seemed like a rushing tornado! Nature with all her elements of beauty, speed, symmetry and form combined that all the world might rise up and say: "Behold a horse!" How did the fatal catastrophe happen? The Wild Man of Borneo was quietly grazing in the yard and a great herd of brood mares came wildly rushing up from the pasture and he attempted to go over a high picket fence and was emped upon the top and received the wound, of which he died. Could the shield of skill and the buckler of science avail against such a deadly wound he would not have died, for he was attended by one of the most skilled doctors in all the land. After lingering a few days he walked to the yard gate, looked longingly toward Preachersville and then a long, lingering look toward Crab Orchard, walked deliberately back and lay down near the house and died without a struggle. Lord Byron, the great poet, once swam a prong of the sea to get to his lady love and the poor horse with such an illustrious example before him can not be severely censured for taking his wild and fatal leap. I wish now I had not entered him in the Seraglio, but that he was now as his owner was until he was 27 years and six months old, and as his owner has been for the last 18 years! I have seen but few show horses with the same human intelligence as the noble "Borneo!" But my eyes grow dim and watery with tears. Woe, worth the leap; woe, the day, That cost thy life, my gallant bay!

Butter Factory for Stanford.

Co-operative institution that will be a great relief to dairy farming. Better prices for product.

Messrs. Jones and Bancroft, representing the Chicago Building and Manufacturing Co., are canvassing our business men and farmers in regard to the establishment of a creamery in Stanford on the Elgin system of manufacturing butter, shipping cream, etc. We see no reason why such an institution should not be a good industry for this community. Other towns support enterprises of this kind and they prove a great help in keeping up the business of the town. The proposed plant will be equipped with the latest improved machinery and appliances, the separator having a capacity of separating the cream from 3,000 pounds of milk per hour. The improved machinery and the ways of conducting and operating creameries are entirely different from the old system of cream gathered creameries, where the farmers had cream cans and raised the cream at home under the setting or gravity system, losing one pound of butter to every 100 pounds of milk that can be gained by sending the same amount to the factory and having it put through the separator. The skimmed milk returned to the farmer will be sterilized, which remains sweet, thereby containing more nutriment for feeding than sour milk with all the cream left in after skimming and making butter at home.

Why the separator system makes cows pay: Simply by making more butter from the same amount of milk, which brings more per pound, as it can be ripened easily at the factory. By the separator all the cream is extracted from the milk and all the butter is obtained from the cream and the results are fully 25 per cent. greater than can be obtained by home churning. Again the separator expels from the cream all the impurities that may be in the milk, thus enabling the factory to produce fine, "gilt-edged" butter of long-keeping qualities, perfectly uniform in color, setting, flavor and grain. Elgin butter always commands a ready cash sale of from 10c to 12c more per pound than the average country butter.

A plant of this kind would put in circulation each month among our farming community several thousand dollars, creating a better cash trade among the business men of the town, build up and enhance the price of land and also enhance the price of cows.

The plan of operating the plant will be purely co-operative, no one owning but one share (\$100) and nothing to be paid until the plant is completed and ready for operation. We notice a number of our business men and farmers subscribed shares of stock to the same which strongly points to a plant of this kind for Stanford in the near future. The above gentlemen have built during the past year plants at Shelbyville, Taylorsville, Bloomfield, Wilmore and other points, and at this time they are building plants at Paint Lick, Lancaster and Bowling Green. This is an enterprise our people should encourage and not let go by.

THE growth of national banking is phenomenal, and that of State banks almost as great. Between April 6 of last year and March 22 of this year every item in the statements of the national banks increased, except that there was an insignificant decrease in the amount of legal tenders held. The increase of less than 12 months in the resources of the banks is astonishing. The capital, surplus and undivided profits increased \$108,000,000; the circulation increased less than \$38,000,000, which is very much less than the increase would have been permitted under the enlarged capital; the individual deposits increased \$291,000,000; the government deposits increased nearly \$80,000,000; the specie increased close to \$41,000,000; the loans and discounts increased \$394,000,000, and the increase in the total resources was \$617,000,000.

In an interview given the Associated Press, former Boss George B. Cox, of Cincinnati, a Foraker supporter, announces for Taft for President and Foraker for Senator. CHRISTIAN CHURCH REVIVAL.

The revival in progress at the Christian church, which began on Monday last, is awakening large interest, the attendance being unusually good and interest intense. There have already been a number of additions to the congregation and the revival promises to produce a large and general religious awakening in the community. Dr. R. H. Crossfield, the evangelist, while occupying a regular pastorate in Owensboro, where he preaches to a large church, is also an evangelist of extensive reputation, his recent revival at the First Christian church, Kansas City, Mo., being the largest in the history of that historic congregation. Being Catholic in spirit, he aims to conserve the spirit of good fellowship among all religious bodies. The entire community, regardless of church affiliation, will hear Dr. Crossfield with great pleasure and profit. The music is in charge of Rev. C. W. F. Daniels, of Hustonville, and as director of the large choir and soloists, he is winning good opinions at each service. His voice is a rich tenor in quality, with rare range and sympathy. The choir is composed of the best voices in the city and is a strong factor in the meetings. The services are conducted at 10 A. M. and 7:30 P. M. each day, there being no day service on Saturday. On Sunday afternoon, in addition to the Sunday school rally at 9:30, and the services at the morning and evening hours, Dr. Crossfield will give his lecture on "When you get Married." This will be free to all, but tickets of admission will be required at the door. These tickets will be ready for free distribution on Friday evening. The following are the subjects which Dr. Crossfield will discuss during the evenings of this week, in addition to the "Old Folks" meeting to-day at 10 A. M., and up to Monday of next week: Friday night—"Drifting Away From God." Saturday night—"Things That Save." Sunday morning—"Rightly Dividing the Word." Sunday afternoon, lecture—"When you get Married." Sunday night—"Almost but Lost." Monday night—"Side Doors to Heaven." The services begin each evening at 7:30 o'clock.

Coming 5 years old, heavy bone, black with white points, 15 1/2 hands high, will serve jacks at \$15.00 for jack colts, \$10.00 for jennet colts, mares at \$8.00 to insure a living colt. Mares priced at \$6.00 to \$8.00. Pasture at \$2.00 per month. Not responsible for accidents should any occur. Call and see my jacks, and their jack colts as well. I can show you what my jack can do, as I go on the Missouri plains—I show you instead of telling you. I will take pleasure in showing all mule, jack and jennet colts. I will also stand my jack, Peyton, for \$8.00 to insure a living colt on same terms as Black Hawk. Will also serve a few mares free with my high bred colts. Independence Child. R. L. R. N. C. "Cheaper to Move Than Pay Rent"

is an old saying, but a true one is, "When your clothes get too small you must get larger ones." Our growing trade demands more room and we will move about June 1st to the large room now being built for us in the Myers House Corner. We hoped to get in this new room for the Spring trade, but the bad weather kept the work back. We bought heavily of Spring goods and are crowded for space, consequently we will offer many attractive bargains in order to reduce our stock by moving time June 1st. The cold weather has hindered the selling of Spring goods and we must reduce our stock within the next 45 days. Watch this space for special offerings.

Special No. 2.

One-Fourth off the price of any new Spring Tailor Suit. Tans, Greys, Navys, Black and Fancies.

A Mild Laxative For Baby's Bowels

The infant or the child should not be given salts, purgative waters or harsh pills or tablets when the bowels are constipated and neither should any medicine be used that contains a narcotic.

It is well for mothers to remember that there is no better, gentler or more effective remedy for children's stomach and bowel troubles than Dr. Caldwell's Syrup Pepsin. Its purity and mildness make it especially adapted to young people's use. It works gently but surely, and containing, as it does, many tonic ingredients, it not only cleans out the congested bowels, but tones the system and makes the child feel better in every way.

Among the thousands who are using Dr. Caldwell's Syrup Pepsin is Mrs. Spalding, of Mayfield, Ky., and she writes that she gives it to her baby regularly and that she would not be without it. She has used it herself for a long time and ought to know.

Mothers will find this an invaluable remedy for old and young in constipation, dyspepsia, liver trouble, diarrhea, colic, worms, and the many other ills that afflict the stomach and bowels. It is guaranteed to do what we claim, and by its use a home cure at very little cost is easily brought about.

Children are often troubled with skin diseases, are backward in school, lose weight and do not care to eat or play, when all that is really the matter with them is stomach trouble. Dr. Caldwell's Syrup Pepsin will correct. Go to your druggist to-day and buy a bottle and see how quickly the child gets well again.

It is a good thing for the whole family to use in stomach, liver and bowel complaints. A 50 cent bottle has often restored an entire family.

FREE TEST Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Gentlest yet most effective laxative for children, women and old folks. A guaranteed, permanent home cure. THE PUBLIC VERDICT: "No Laxative So Good and Sure as DR. CALDWELL'S SYRUP PEPSIN." This product bears purest of all. No. 17, Washington, D. C.

The six and one-half million people in Greater London live in 928,008 houses. The population one hundred years ago was just one-fifth what it is now. Though the number of births was nearly double the number of deaths in 1904 the birthrate is steadily declining. The Kentucky Court of Appeals, in deciding that the constitutionality of the Cammack County Unit Law, certainly places local option in the saddle to stay, depending only upon the continuance of public sentiment to the point of the law's strict enforcement wherever the prohibitory rule is invoked. The decision confirms all that is claimed for the law and makes it possible to make the local option system of control of the traffic almost universal throughout the State.—Somerset Journal.

"When I was at Harvard," said Dr. William F. Anderson, of New York, in concluding a brief address, "the boys had a little epigram with which they used to warn speakers not to be too prolix. "I suffered with rheumatism for over two years," says Mr. Rolland Curry, a patrolman, of Key West, Fla. "Sometimes it settled in my knees and lamed me so I could hardly walk, at other times it would be in my feet and hands so I was incapacitated for duty. One night when I was in severe pain and lame from it, my wife went to the drug store here and came back with a bottle of Chamberlain's Pain Balm. I was rubbed with it and found the pain had nearly gone during the night. I kept on using it for a little more than two weeks and found that it drove the rheumatism away. I have not had any trouble from that disease for over three months." For sale by all druggists.

No. 1982, Vol. 5, A. S. H. R.

Mahogany bay, black points, white only on left hind foot, 15 1/2 hands high, weighs 1,300 pounds, strong flat bone, heavy mane and tail, good back, with long, crany, tapering neck, well set in high-mounted shoulders, a saddle horse head and ear on him, a model under halter, always wears blue string in model rings, except twice when shown against his own get, wonderful style in harness, a show horse sure. When one year old wore all honors in his class wherever shown; also the blue tie in sweepstake harness rings at same age. When a 3-year-old he was shown 14 times and wore 13 blue strings; has never been defeated in fancy harness rings; has always been the victor in stallion stake ring, as a breeder, when shown with three or more of his get for size, style and general conformation and for all purposes. He is a saddle horse with five distinct gaits, fast line acting racker, good in two walks and a nice looper; very positive in his trot under saddle and in harness, great all around action, as is required for an up-to-date sire of high priced sale horses for saddle or harness. He is a sure enough harness horse, graceful, stylish and fast; can show eighth in 18 1/2 seconds, a 2:28 gait, with but little handling; did this last fall one year after serving 91 mares in the spring. He is possessed of wonderful nerve and speed enough to get a trotter for track use or gentleman's roadsters; large, handsome style, heavy and strong enough to get carriage horses with a kindly disposition for all purposes of a family horse. He is the horse to sire parkers, stylish, graceful, substantial and docility. It has been given up by horsemen that he is one of the most uniform breeders in Kentucky. He types his colts after himself; has never sired a sorrel colt. The most profitable horse for the farmer and small breeder to produce is the horse which serves the widest range of purposes well. His colts are show colts of the very highest type, blue string winners from the oldest to the youngest. 34 of his colts have been offered for and sold for an average of \$1,000 the average age of them is 2 years, 7 months and 10 days.

5th dam, Mildard, by Albion, 6th dam Ned by Edwin Forest. 7th dam Lady Turner by Mambrino Chief 11.

The Warfield, was bred to only 15 mares. He has 17 foals, all up-headed, plenty of style, size and substance and plenty of speed. The Warfield is a pure 2:20 type of stallion in all the term implies. To say that he has size, substance and speed only in part emphasize the qualities combined in this son of Dare Devil. He has them and they are of such symmetrical character as to make him a stallion among many. His head and neck, body, feet and legs are perfect and when seen in connection with his faultless gait and great beauty are especially impressive. You should see this horse before breeding. You will say you never looked at a better one. The Warfield is the only stallion that has 7 dams in the great brood mare list. He has two Mambrino King crosses, two Mambrino Patchen, two Mambrino Chief, one Chimes, one Onward, 1 George Wilkes, 1 Electioneer, 1 Nutwood 1 Stratton, more trotting crosses than any stallion alive.

The Warfield is by Dare Devil, 2:05, record 2:09. He by Mambrino King 1979, he by Mambrino Patchen 58, he by Mambrino Chief 11. Dam Mercedes, by Chimes 545, by Electioneer 15.

Dare Devil is a great winner. He won the championship at the National Horse Show in 1888, class 1; first National Horse Show in 1889, class 12; championship National Horse Show 1890, class 2; first National Horse Show 1890, class 12; championship National Horse Show 1900, class 1; first Boston Horse Show 1902, class 3; reserve Boston Horse Show 1902, class 1; second Boston Horse Show 1903, class 1; second Boston Horse Show 1903, class 2; reserve Boston Horse Show 1903, class 1; third Boston Horse Show 1904, class 7.
